

## Virtual Cash Acceptor

Control access and integrate your operation—Boscorp has the complete online solution for print and copy control.

The Virtual Cash Acceptor (VCA) works with leading market software products to enable to accounts in office, school, and library environments. Just plug the VCA into your network to communicate with your central accounts database, which tracks activity at all your office machines.

Patrons can key their account number into the VCA or swipe any ABA magnetic stripe card (student ID, library card, grocery store card), scan a proximity card or barcode. This grants access to their account and allows instance funds increase to the patron's account.
